

## Release pregnant inmates, NHRC tells states

**NEW DELHI, OCTOBER 8**

The National Human Rights Commission (NHRC) has issued a detailed advisory to several ministries and state governments/UTs to ameliorate the socio-economic and health conditions of women, especially those from marginalised sections, in the context of the Covid-19 pandemic and the concomitant lockdown.

The advisory says all pregnant women and those with children must be released from prisons. The ministries include Home, Women and Child Development, Health and Family Welfare, Social Justice, Labour, and Rural Development. The commission has recommended increasing the number of guaranteed days of work under MGNREGA. Expressing concern over rising gender-based violence cases, it batted for a “coordinated and inter-ministerial health system response” to victims. — TNS
