#### National Human Rights Commission Bonded Labour/ Research Section

# Sub: Visit report of Dr. Vinod Aggarwal, Special Rapporteur, NHRC to Ahmadnagar District Jail, Maharashtra on 28th February, 2020

Dr. Vinod Aggarwal, Special Rapporteur, NHRC visited Ahmadnagar District Jail, Maharashtra on 28<sup>th</sup> February, 2020 to understand the living conditions of the prisoners and under-trials & to see whether rights of theirs are being respected by the local jail administration or not. The observations and recommendations that emerged from the visit are mentioned below:

#### **Observations/ Key Information obtained:**

#### 1. Jail Infrastructure:

- The jail building is more than 80 years old and in need of necessary renovations.
- Repairs to seepage and leakage problems need to be undertaken.
- A new barrack is under construction but it does not increase the jail capacity significantly to solve overcrowding.
- Construction of a kitchen with necessary equipment is needed.

#### 2. Jail Population:

- The Jail is built to house 69 prisoners and at present there are total of 173 inmates, that is, there is 250% occupancy. This shows significant overcrowding in the jail.
- There is no female ward in the jail.
- There are only 4 barracks and per person space is low. In fact, it came to the fore that these barracks have a capacity of only 50 inmates, which means actual overcrowding is more than 350%.
- A significant number of inmates (164 out of 173) are Under-Trial Prisoners (UTPs), 12 of whom have been there for more than 2 years.
- Cleaning activities are undertaken by the UTPs. However, the wage rates are found to be low. Also, UTPs are made to work in the kitchen as well.

#### 3. Health facilities:

- There must be at least a 10 bed hospital in the jail, but no hospital has been constructed, though 7 beds are available.
- The OPD is run by a compounder and no doctor is available on general duty.

#### 4. Personnel:

- There is no significant shortage of personnel. 39 of the sanctioned 42 posts have been filled. The posted doctor is under suspension and no posts have been created for other health staff, psychologist and cooks.

- However, the sanctioned posts are according to the sanctioned capacity of inmates in the jail, therefore they do not meet the present needs since there is significant overcrowding.

#### 5. Custodial Deaths:

- There has been no case of unnatural death in the prison in the last three years.
- It is observed that magisterial inquiry has not been conducted timely in the older cases.
- **6.** There is significant variation in visitation rights of the prisoners in comparison to other states. Visits are restricted only to immediate blood relatives and that also after police verification.

#### **Recommendations:**

#### i. Infrastructure:

- A certificate of worthiness of the conditions of the jail building may be obtained from the appropriate authorities since it is an old construction.
- The kitchen requires necessary renovations such as wire mesh in windows and automatic door closures.

#### ii. Employment of inmates

- The wage rates for the inmates must adhere to BPRD norms,
- UTPs must not be made to work in the kitchen and the post of cook should be created.

#### iii. Visitation Rights:

- The restriction on visits and police verification of immediate blood relatives for visitation must be urgently re-examined. Uniformity of these rules across the country must be aimed.
- iv. Cases of UTPs who have spent more than 2 years in the jail must be reviewed and delay must be examined.
- **v.** Provision of escorts for presentation of inmates in the court may be expedited.
- **vi.** The concerned administrative wing of the Commission must ensure that the magisterial inquiry report is filed positively within 30 days after the unnatural death.

No.

Dated 10th Mar, 2020

Dear Shi Buidees

Please refer to letter no 16/1/2019/Coord.dated 31/01/20 of NHRC, by which a tour program for Maharashtra was approved.

The tour report-1, about the cases referred by the NHRC, about human rights violations, to the state of Maharashtra.it was very difficult to contact officers in the home department. No one was aware of my program and after going around for long time through personal contacts, I could talk to ACS, Home Mr Shrikant Singh. With great difficulty information has been gathered. The report-1, is from p 1-5, and annexure-1 to the report, is p 6-14 and annexure-2 is p 15-22, on a proforma designed by undersigned to get a better reflection of the program. The matter have been partly responded after many years and need lot of improvement.

Report-2, is after discussion and field visit to MG NREGA scheme running in district of Thane. The report -2, is from p 23-28, and annexure to the report on a proforma designed by undersigned to get a better examination of the program. The report submitted by district administration is from p 29-44.

Report-3, is from p 26-30, is based on visit to central jail Nashik. The annexure-1 is from p 50-64 and annexure -2 (p 65-71)to the report on a proforma designed by undersigned to get a better examination of the program., which goes beyond the format developed by NHRC.

The report-4, is from (p72-76) is about the MG NREGA scheme in district of Nashik. The report gives details of many shortcomings of the program in the districty and Sinnar block. The annexure A are the document submitted by the district

301797

10(24) Jan 18/3/20 SILO

authorities which are from p 77-83. The annexure-B, to the , submitted by the block authorities of Sinnar block for Khamble and Pathare Bhurd panchayata which are from p 84-91. Report-5, is from p 92-95, is based on visit to district jail Ahmadnagar. The annexure-1 is from p 96-110 and annexure -2 (p 111-113) is the report gathered on a proforma designed by undersigned to get a better examination of the program., which goes beyond the format developed by NHRC. The recommendations in each report are given separately, which

men regards

Yours Sincerely

Dr Vinod Aggarwal

Shri Jaideep Govind Secretary General, NHRC

may be perused for further action.

## Dr Vinod Aggarwal, IAS (Retd.)

Dated: 10th Mar, 20

Lear

I visited Maarashtra as per approval of NHRC, vide lett no 16/1/19- Coord, dated 31/01/20. The tour reportal, is about the cases referred by the NHRC, about human rights violations, to the state of Maharashtra. It was very difficult to contact officers in the home department. No one was aware of my program and going around for long time through personal contacts, I could talk to Addl. Chief Secretary, Home Mr Satikant Singh. With great difficulty information habeen gathered. The report-1, is from p.1-5 and annexure-1 is from p 6-14 and annexure-2 is p15-32. The matters have been partly responded after many years and need tot of improvement.

The report 2 is about MG NREGA running in district of Thane. The report-2 is from p-25-2: 11d annexure to the report is on 29-44.

The report-3 (p. 45-49) is based on the wiste to Central jail Nashik. The annexure-1 is from (p. 50-64) annexure-2 (p.65-71) is the report gathered by undersigned on a centain parameter which require going beyond the format developed by the RFL....

The report 4 is from (p-72-76) is about MG NREGA in district of Nashik. The report gives details of many shortcomings of the program in district and Sinnar block. The annexure A are the document submitted by district authorities which are from (p-77-83). The

annexure B is the report submitted by block authorities of Sinnar block for Khamble and Pathere Bhurd panchayats which are from (p-84-91)

5<sup>th</sup> report (p. 92-95) is based visit to Ahmednagar district jail. The annexure-1 is from (p. 95-110) annexure-2 (p.111-113) is the report gathered by undersigned on a certain parameter which require going beyond the format developed by the NHRC.

Yours, Sincerely,

Dr Vinod Aggarwal.

Shri Jaideep Govind Secretary General, NHRC Report 1, about the National Human Rights matters sent for comments and are pending state of Maharashtra by Dr. Vinod Aggarwal, Sp. Rapporteur, NHRC on 25<sup>th</sup> February, 2020.

The Constitution of India provides certain basic rights to all its citizens irrespective of their gender, age, religious inclinations, caste or ethnicity. Any government cannot interfere in the exercise of human rights such as right to liberty, right to the freedom of thought and expression, right to religion and right to equality before law. The constitution has provided Judiciary with the power to protect the fundamental rights of Indian citizens. Human rights are moral principles or norms that describe certain standards of behavior of humans and are regularly protected as rights, in state and international law. They are commonly understood as inalienable, fundamental rights "to which a person is inherently entitled simply because she or he is a human being" and which are "inherent in all human beings", regardless of their age, nation of origin, location, language, religion, ethnicity, or any other status. They are regarded as requiring empathy and the rule of law and imposing an obligation on persons to respect the human rights of others, and it is generally considered that they should not be taken away except as a result of a procedure based on specific circumstances. For example, human rights include freedom from unlawful imprisonment, torture & killing by execution. Thus based on the Human rights violations complaints cases which were referred by the NHRC to state of Maharashtra was tried to be examined in which more than 90 of the cases were of police and jail atrocities.

Police and Jail atrocities amounting to HR Violations: According to the reports of various organizations, hundreds die in Indian police stations and jails, even before they get a complete fair trial. The number is alarming for a country boasting to be the World's greatest democracy and where the Constitution provides for a free trial to all in the court of law. Communal and Caste violence, amounting to HR violations- which resulted in many lives lost. Atrocities on SC, ST and OBC are well known our country for punishing the perpetrators of these atrocities, special acts have come up. the cases of burning of homes, crops and grain in the house along with beating mercilessly where even loss of limb or breaking of bones are well known where some cases of burning which result in death is also known. Authorities continued to use

laws on sedition, defamation, and counter-terrorism to crack down on dissent, against freedom of speech and agitate against excesses of authority was seen in the country. The governments in the center or the state or senior officers in the authority have used their power to gain assets by silencing their opponents by show of strength of by implicating in false cases. Each and every government, who so ever has been in power, in India, has used the state authority to silence their opponents and that is my view. The reason is that the roots of democracy have not grown to the extent and lack of legal aid and cost of legal aid is too much that a common man is not able to his rights get implemented through the courts.

Journalists faced increasing pressure to self-censor due to threat of legal action, smear campaigns and threats on social media, and even threats of physical attacks. In August, the government withdrew its controversial proposal to monitor social media and online communications and collect data on individuals after the Supreme Court said it would turn India into a "surveillance state." The freedom of press had been restricted on the pretexts of protecting democracy, instilling communal harmony etc. There are incidents when a person was booked under relevant sections for terrorism, just for printing something unacceptable to the serving governments. The Indian government has a great influence on its media.

Based on the cases of Police and jail atrocities which are referred by the NHRC to the state of Maharashtra and few cases of the other rights violation of human rights like freedom of press or caste violence which are atrocities on STs & SCs or minorities or other weaker sections of the society.

# The report received from the state government is enclosed, following are the recommendation:

1. It would be important that state government must create a position of joint secretary in home department to deal with all cases of the human rights violations which should include the references made by the NHRC. It seems there is no officer designated in the state government and in a way no one was there to deal with the subject. I could meet Additional Chief Secretary (home) Mr Shrikant Singh, with great difficulty and personal effort, who still felt, he may not be right person to deal with the subject. But he could not direct me to right person of a rank sufficiently

- senior to deal with the subject in the question. It would be desirable that there should be a post at least a Joint Secretary level position in state government, who should look into the complaints about human rights violation. The same person could collate to the matters referred by the NHRC or the State Human Rights Commission or direct complaints of high handedness of police and jail authorities which make the majority of such complaints.
- 2. The other point which emerged from the reports, submitted by the home department, in annexure-1, is that cases of 2011 are still pending which have reminders for more than 5 years. It is of importance that in matter of jail or police custodial deaths the magisterial reports remain pending in the state government. In a case no 1520/13/23/2011 PCD of NHRC, where last letter sent from NRHRC is 29/8/17 where Raju Thomas Nadar, died in police custody, the proof of payment has been sent on 3 Jan 2020, by Deputy Commissioner Police Pune. How much worse could be state of affairs can go where a man must have died in police custody long time back, what happened in police inquiry about the custodial death has not been informed but some compensation has been paid in ten years. Therefore, pointing out to the matter of custodial deaths, it has be taken on priority and all such cases should be taken to logical conclusion with one year of the death. If the National and State commission together after dividing the work formally, can't dispose of cases of custodial deaths in one year what real purpose, for the commission are sitting for. This looks to me, one of the most important component of work of human rights commissions, that cases of custodial deaths are examined timely and if some authority is responsible for torture, he/ she is taken to task. All such cases in Maharashtra are in large numbers, as reflected in various tables submitted by the home department of the state government.
- 3. In case on 2806/13/23/2015, of annexure-1, the last letter from NHRC is 6-3-19 in which police harassment has been complained, but the reply sent on 26/9/19 has sent a proof of payment. The details are not really given to further comment, it would be desirable the concerned section of NHRC may look in to the matter, but clearly it is a case of 2015, which could have been resolved earlier.
- 4. In a case no 228/13/21/2011 PCD of NHRC of annexure-1, in the case of custodial death of Mangesh kumar Kale the SP Osmanabad has sent proof of payment almost 8-9 years of the incident and which is state of affairs acceptable in the country. In a case no 391/13/30/2011PCD of custodial death, the report sent by 30/9/2019, by Deputy commissioner Ulhas nagar.
- 5. In a case no 1324/13/1/2015PCD of custodial death of annexure-1, the report sent by 2/5/2019, by SP Ahmednagar, after 4 years need to be examined by the concerned wing of NHRC.

- 6. In a case no 1943/13/1/2017, of annexure-1, for making a reference to DM Ahmednagar, that the case belongs to women and child department, the concerned department has task 2 years and they considering matter being disposed off.
- 7. In other cases are of 1807/13/32/2016, case no 655/13/17/2019, cases no 600/13/20/2013, 969/13/33/2017 of NHRC of annexure-1, are of sexual harassment a delayed action of police has been seen despite of taking up of the matter referred by the commission.
- 8. In a case number 2297/13/30/2013, of annexure-1, it has been mentioned that a complaint referred about of 3 employees of Anuradha Industrial Area reported by Rajhans Bansal, chief editor. It has been replied, that matter has been referred to Principal Secretary, Rural Development, when and by which letter, nothing has been mentioned, which requires a detailed report by the state government.
- 9. In a case number 1155/13/30/2008-09, of annexure-1, it has been mentioned that a complaint referred by Kalandar Aulad Hussain and Kamar Kalandar Hussain where NHRC has sent last reminder by 21/02/18 to state government, in which it has requested to withdraw the show cause notice due to matter is being sub-judice, in the session court kalyan vide letter dated 11/09/19 but information need to be verified by the NHRC.
- 10. In a case number 369/13/30/2014, of annexure-1, it has been mentioned that a complaint referred by where NHRC has sent last reminder by 27/10/17 to state government, in the matter of Sanjay s/o Bishram and others, it has been sent to NHRC, regarding action to divisional commissioner Nagpur on 2/11/17.
- 11. Similarly other cases need to be seen in this light all other cases where all the half hearted report submitted by the state government need to be examined. All the cases show mishandling of all matters as reports are delayed for years together in majority of the cases. The files were not shown. But it would be important that the records may be matched with the information gathered and it may become useful. It would be important before sending for comments that first it may be collated with the records of various cases described in various tables by the jail and police department of the Maharashtra government.
- 12. In the prison side of the report if go through the cases mentioned in the report. In the matter of cases of NHRC 467/13/30/2014-JCD,129 4/13/12/2018-JCD, 1627/13/23/2014-JCD, and 2310/13/14/2013-JCD, of annexure-2,where last reminders are given in late 2019, to various Suptd. of jails. The reply is similar that monetary compensation case tor next of kin(NOK)of deceased prisoner and the report has been submitted to the ACS(A&S) Home Dept. respectively by vide letters no 10298 dated 30/12/19, 9174 dated 19/11/19, 2084 dated 28/02/20 and 240 dated

- 07/01/20. I all cases matter is pending with the home department. These matters the final report may be submitted to the NHRC.
- 13. In the prison side of the report if go through the cases mentioned in the report. In the matter of cases of NHRC 2116/13/10/2013-JCD, 2866/13/30/2013-JCD, 1119/13/30/2011-AD, and 1797/13/0/2017-OC, of annexure-2, where last reminders are given in late 2017, to various Suptd. of jails. In these cases the compensation to next of kin of Rs 0ne lakh has been sanctioned 5to 7 years after the incidence. This is a too much delayed payment to the

Report 2, Mahatma Gandhi National Rural Employment Guarantee Act (MG NREGA) in Thane district of the state of Maharashtra by Dr. Vinod Aggarwal, Sp. Rapporteur, NHRC on 25<sup>th</sup> February, 2020.

Implementation of this rural employment scheme was examined in the district of Thane on 25th Feb, 20. The district was the biggest district in the Country (population wise), situated in Konkan division, of the state, as per 2011 census. The population of the district was more than 11 million. But with division of Palghar district in 2014, now the population as per 2011 census, and people remain with Thane district is 8.07 million. It is mainly urban district with 86 % population is urban area & only 14% population is rural. Thus the rural population is about 1.16 million. The district has 7 talukas out of which 3 are mainly urban. There is 7.97 % population belonging to SCs and 5.26 % to STs. In the district about 6.43 lacs SCs and 4.24 lacs STs live and among them 64993 SCs and 253456 STs live in the rural area. They constitute 5.82 % (SC) and 22.7% (ST) population of the rural area of the district. There are 51430 rural households, who are agricultural laborers or land less families. Out of these 51430 landless laborers, as per district administration only 2296 are willing for job card and 20233 are not willing for job cards. 2180 of the 2296 got the job cards. The total HHs surveyed out of theses have been 49038. The district has lot of household work in the urban area as the district is highly urbanized and the people in rural area are also coming to urban pockets to work.

The rural population of the district has more than 103204 households which have 4816 SCs, 35366 STs and 63222 others in the rural area, but many of them have been enumerated. As per population of 11.6 lacs there should be 2.4 lacs rural households based on family size of 4 or 5 persons. The number of registered families with job cards are 98276 in which include 4640 SCs, 33529 STs and 60107 others Households. The district has 5 rural area in 7 talukas and 2 talukas are 100% urban. The active job cards number in general has not been given, but one reference is coming that out of 51430 HHs who are landless, and out of them 49038 had been surveyed and only 2296 showed willingness to get the job card and 2180 got it made. This is an indicator that the scheme is not popular in the district. May be

scheme is slightly popular in the Murbad and Shahpur taluka who have larger chunks of tribal population.

The man days target over the years has not been achieved in all the years except one year. In the year 2015, the man days target was 2.2 million man-days against which 1.01 million man days were achieved, about 46% of the target. Next year in 2016, the man days target was reduced to .49 million man days against which the achievement was .269million man days, which is 55% of the target. The man days target was further reduced to .3 million man days in 2017, against which .469 million man days which is 156% of target was achieved. In 2018, against a target of .365 million man days, .566 million man days was achieved which is 155% of the target. In 2019 against target of .631 million man days the achievement of .396 million man days was there which is only 63% of target. In the current financial year 19-20, against the target of 0.465 million man days 0.229million man days have been achieved about 50% of target.

For rural population of 1.16 million, the target of 2.2 million man days fixed in 2015 seems low but satisfactory. but the way target which has been varied tremendously, that sometime 2.2 million man days and some year as low as .3 million there is difference of 700% which looks very odd. It seems that the scheme in certain urban districts are handled with kid gloves and there is no system to suggest a scientific process of working on the annual target. Only positive side of the program is Thane district is that the administration has surveyed and found out that 20233 of the eligible families are not interested in getting the job card made and the number of these are about 10 times of that who want to get the job card made. Among the landless, only 2180 households, got the card made. But this figure doesn't look reliable when on the other hand 98276 House-Holds(HH) in the district got the card made. in total 1.16 million rural population. The population of 1.16 million house holds with an average family size of 5, suggest that there could be 232000 households. as 98276 HH got the job cards made which makes that 42% of the rural households got the card made. therefore many land-less families not willing to get the job cards made does not look correct especially figures given in point no 7. The man days target should be much more if the more than 98 thousands job cards are made. Number of active job cards have been reduced from 33589 to around 10000 in 2018. thus active job cards and

families having 100 days of employment also varied from 500 to 1000, which is about 7-8% of active job cards looks a similar picture all around the country. This information is as per para 13 of the report.

The wages paid in the district under MG NREGA are rs 206 which are about 20% less than the wage rate in the rural area of the district. The minimum wages in urban area is even further higher. Thus the wage rate is also a hindrance in getting the labor in this developed urban area of the state.

as for the timely payment, the district administration has started looking into this point only from 2016. In the year 2016, the timely payment in 15 days is only 6% and in 8 days is only 3%, which increased to 8% in 8 days and 7% in 15 days in 2018. It is clearly established that timely payment to labors is not known even till 2018, and timely payment remained very low. In timely payment there is no improvement in even 2018-19. The payment although to smaller number of labors, but it is better, in timely payment, in Bhiwandi taluka than other talukas. Aadhaar based payment increased in last 4-5 years from 1% to about 34%. Although figures are low, but they are better than timely payment. In 2018-19, the 62% man days target was achieved, but the main work was done in Shahpur where 101% target of man days and Murbad taluka where 76% of target man days was achieved. The job cards are issued in larger number in these 2 Taluka and active job cards are also. Among the linked Aadhaar cards with the family cards, the verified Aadhaar cards are about 80% of the whole district with variation of 15% between best and worst taluka which looks reasonable. This is as per point no 14 of the report submitted on the proforma developed by undersigned.

About completion of schemes, between 2014-18, about 13237 schemes were taken up and out of them 12195 scheme got completed. The district administration has said that 108% schemes got completed which is not possible during that period. On the one hand they are mentioning that 1851 scheme remained pending. Thus the report is not clear and confusing, when 15% schemes are pending, how come 108% scheme can be shown completed. In the year 18-19, 72% have completed. The 100% schemes are shown to be geo –tagged which also look unreasonable.

Out of 430 panchayats in the districts, there is no work being done in 70 panchayats in the current year. In another 180 panchayats, very little work has been done. The distribution of work is skewed and no evenly sparse in the region .The administrative expenditure has remained within 6% consistently. In case of NRM expenditure the 5 year average is about 55.78%, but it should have been above 60%. In the year 2014, it was about 51.42% and in 14-15 it became 59, % came down to 45 % in 15-16 and remained in same range of 46% in 16-17. Suddenly in 17-18 it got raised to 77%. In 18-19, it continued in the same range but % varied in blocks from 59% in Bhiwandi and 92% in Murbad Taluka.

#### Recommendations:

- 1. The rural population of the district is sufficiently large and STs in rural area are 2.53 lakhs and constitute 22.7 % population of the Thane rural. There are 64993 SCs in the rural area constituting 5.82% of total rural population. With about 60000 land-less labors, the number of total house hold card holders are around 98 thousands which look reasonable, but heir number has reduced from impossible 2.6 lakh job cards which look improbable. The number of active cards has come down from 33589 to 9591 from 2015 to 2019. When the man days target varied and came down 7 times, this type of change in figures is inevitable. It is felt the man days target should be worked out more scientifically and such large variation should only be there if there is some catastrophe in the region. With 1.16 million rural population the target of 25000 active job card and 75000 households look reasonable with at least 2500 families completing the 1000 days of employment.
- 2. It is felt that this figure should touch 25000 families as active card holder families are more than 75000 families, and at least 500 families be out of SCs and 2500 families out of STs, who should get 100 days employment.
- 3. The payment of wages are very much delayed less than 15% of wages of total man days are paid within 15 days after the work. in the timely payment, the performance is very poor and an explanation of the concerned officers may

be sought and action be taken against the officers who are responsible for delay in payment.

- 4. Administrative expenditure is less than 6% based on mean of administrative expenditure every year. The expenditure on administration is within limits. The wages of the Block in charge of NREGA program is too low to command the respect from Class 3 staff (panchayat sevak etc.) and others. It is strongly felt that, even if these are on contract, there salary should be more respectful and commensurate their responsibility.
- 5. When Aadhaar verification is quite high of 80% (Aadhaar linked cards 55995 and verified Aadhaar cards are 44782). The payment based on Aadhaar verified card is reasonable at about 34%. The reasons informed by the administration is that there are more than one account opened for the beneficiary and the system finally captures only one of those accounts and if the beneficiary has more accounts and funds gets transferred in any one of the accounts, than it is not reflected in the Aadhaar based payment, there is an issue that needs investigation so that all the accounts of the beneficiary should be reflected or the money be transferred in the earmarked account only. It seems some sort of software changes are required for which a higher level inter action is require.
- 6. The number of incomplete works is about 1851 out of 13237 on which work was taking place. The 16% schemes as on 31-3-2019 remained incomplete. It is required that district administration conducts an audit and see that schemes more than 3 years old are either completed or foreclosed on an early date or in the current financial year 2019-20.
- 7. It is prescribed that 60% expenditure should be due on NRM (Natural Resource Management) and in 5 years it has been average about 55.5%, which should have been above 60%. In the years of 13-14 it was about 51.4% and in 14-15 it became 59 %. Later in 15-16 and 16-17, it again decreased to 45-46%. In the year 17-18 it suddenly raised to 77%. The district administration is to be encouraged to keep the NRM expenditure between

- 58-62% over the years and all the talukas and not as a wide variation as seen in this case.
- 8. The man days target of .6 million seems to be low but need increase to 2 million man days and at least 5000 families should complete 100 days of employment. The district has not achieved the man days target in many of the years in last 5-6 years, except 16-17 and 17-18 when target was too low. Therefore it is felt that the target raising has to be based on further assessment of the capacity of the personal and it seems the rate are low in MG NREGA, which may not be encouraging for workers to work whole heartedly. The district is mainly urban and almost part of Mumbai metropolis where lot of work opportunity is there in service and manufacturing industry, but still some regions of the district like Murbad, Shahpur and Ambernath Talukas in need of work which are slightly away from industrial and urban pockets of Mumbai and Thane. Some area are untouched by the Mumbai local trains and it is required that a correct assessment of requirement of work (MG NREGA) in these areas should be attempted.
- 9. The wages given under MG NREGA increased so that there ratio is maintained at the same differential from minimum wages in the area, which was about 5 years back. That will also encourage more workers to come forward for MG NREGA works.
- 10. Out of 430 panchayats in the district, in 70 panchayats no work has began when almost 11 months are over in the current financial year. There are other 180 panchayats where less than of 25% average man days per panchayat for taluka has been generated. it is because if no demand of work from those panchayaats but otherwise not acceptable for such an uneven distribution of work.

Dr Vinod Aggarwal

# Mahatma Gandi National Rural Employment Guarantee Scheme - Maharashtra Collector Office Thane

#### General Information: -

Thane district is a district in the Indian state of Maharashtra in Konkan Division. At the 2011 Census it was the most populated district in the nation, with 11,060,148 inhabitants however, in August 2014 the district was split into two with the creation of a new Palghar district, leaving the reduced Thane district with a 2011 Census population of 8,070,032. The headquarters of the district is the city of Thane. Other major cities in the district are Navi Mumbai, Kalyan-Dombivli, Mira-Bhayander, Bhiwandi, Ulhasnagar, Ambarnath, Badlapur, Murbad and Shahapur. The district is situated between 18°42' and 20°20' north latitudes and 72°45' and 73°48' east longitudes. The revised area of the district is 4,214 km². The district is bounded by Nashik district to the north east, Pune and Ahmednagar districts to the east, and by Palghar district to the north. The Arabian Sea forms the western boundary, while it is bounded by Mumbai Suburban district to the south west, and Raigad District to the south.

Thane district comprises 7 talukas (administrative divisions), with Thane being its headquarters. The talukas, with their populations at the 2011 Censuses are as follows

Taluka 1 100	PopulationCensus:2011
Thane taluka	3,787,036
Kalyantaluka	1,565,417
Murbadtaluka 🚽 🖽	· · · · · · ·

### Format for Review of MG NREGA Scheme at district level:

1. Population of the district as per 2011 census, and based on that MG NREGA target for the current financial year or calendar year whatever has been fixed by the government, for the district.

Marie application of g

Population (Census 2011)						
Sr. No.	Description	Thane District				
1	Rural	11,16,792				
2	Urban	69,53,204				
3	Total	80,70,032				
4	Male	43,19,000				
5	Female	37,51,000				

Target of Man-days is not based on Population census. It depends upon Man-days achieved in last 3 years.

- 2. Population of the rural area as per 2011 census, and Proportionate target of Man-days generation for the current financial year or calendar year, till date whatever has been fixed by the government, for the district.
- Rural Area Population is 13.84%

Year		Man-days	
	Target	Achievement	%
2015	2202000	1015579	46.12
2016	492436	269120	54.65
2017	300105	469138	156.32
2018	365038	566553	155.20
2019	631962	396118	62.68

- 3. The achievement against target of Man-days generation in the current financial year or calendar year, till date, in man days for the district.
- &4. The achievement against target of Man-days generation for the current financial year or calendar year, till date, in terms of %, for the district

Dlook	Man-days						
Block	Target	Achievement	%				
Ambernath	34159	16403	48.02

# Report-3 on visit to Nashik Road Central Jail, Nashik by Dr Vinod Aggarwal Special Rapporteur on 26<sup>th</sup> February, 2020.

Format of Jail report is enclosed as annexure-1, (p-3)-4/along with additional format designed for information on certain points to have a better idea of Jail conditions, is also enclosed as annexure-2(p-3-7/1). The central jail is about 93 years old and still being used.

Recommendation after the visit, Discussion with Jail Superintendent of Central Jail and inmates are as follows.

- 1) The central jail is quite old and completed almost 93 years after establishment. The prison was constructed in 1927. Initially it was out of vicinity of town of Nashik, but now it is in the core of the city. Although by facade looks, that can be used for another 20-30 years, but it would be desirable that a certificate that it can withstand certain intensity of earthquake or other type of natural or man-made disasters may be obtained. Only than, it should be used till the economics of the Government improves and a new jail is built. As such now the jail is now completely in the city and can be used for much more valuable purposes and a new central jail can be built 15-20 Km away from the main town at 1/10th cost, where modern design and facility could be given to the jail inmates. The jail administration agrees that model prison manual can't be complied; therefore it is recommended that construction of new jail be decided at the earliest by the Government.
- 2) The jail is meant to house 3178 prisoners and at present as per the capacity are being housed. The 3021 inmates make it about 96% of the capacity. There is on paper no over-crowding in wards, but when per person space has been examined ward wise than in most of barracks the space is less than 36 feet per inmate. In only 14 barracks out of 48, the space to each inmate is more than 36 sq feet., although the norm is 60 sq feet. Based on that

only 2 hospital barracks, barrack no 3 of ward no 1, barrack no 1 of ward no 8, thus only 4 barracks where inmates are comfortably placed, all other places there is shortage of space. In at least 15-16 barracks, less than 24 feet, of area per inmate is available. It is advisable that the barracks which have less in mates some inmates be shifted there and at least each inmate be attempted to reach almost 30-36 sq feet of area. The jail campus is spread over 16.72 hectares, which is not a small area looking at location of the jail. To control the problem of seepage, leakage etc an estimate of 4.99Cr has been pending with home department.

- 3) Large no (1295) of inmates are under-trials and 1726 of inmates are convicts, who are undergoing, 23 simple and 1703 rigorous imprisonments, along with 1378 life convicts, with 7 death sentences. They have been employed for various duties, but the rate given to the inmates is also quite low. The wages to inmates for doing chores are required to be given as per BPRD norms and employment to all those who want to work or required to work as lot many under-trials are also employed in the work which houses more than 3000 prisoners.
- 4) The jail should have a 160-200 bed hospital, but in actual, it has only 31 beds, but no admissions, as hospital bed portion is non functional. There are 3 sanctioned posts of para medicals and 2 doctors. The OPD is about 230-270 patients. The work load is very high for physicians because of very high number of inmates. Although hospital has visits by specialists from other (dentist, gynecologist, dermatologist, psychiatrist) government hospitals but inmates have to wait for long time before their turn comes. There are 45 mentally ill patients in the jail, psychologist visit the jail, to see them, from Thane Mental Hospital. There are 5 TB and 26 HIV patients in the prison. There are arrangements with a NGO named Samata Foundation Mumbai, which helps in detection and prevention of drug addiction and counseling

services. The hospital services are at lowest ebb. There were lot of complaints about doctor not attending and specialists from Sadar district hospital not turning up for the treatment. There were complaints that patients have to buy medicines from their weekly or monthly allocations which they can get from the families. It is desirable that some of the convicted inmates are trained in a role to assist the doctors and the para —medicals so that better treatment can be given with same number of Staff.

- 5) The Kitchen definitely requires up-gradation, in the form of provision of Chimney, Automatic door closure, wire mesh in the windows, Fly catcher in the kitchen and modern platform are the immediate need. The flooring and other facilities require up-gradation. As such no complaints made by prisoners, about quality of food, but quality can't be assessed on a short informed visit to the jail. It should be responsibility of some authorities who can enter jail campus without advance information. There is no concept of dining hall which has been seen in many other jails where the food is served to the inmates in a much better way.
- 6) Out of 1303 prisoners who are under-trials, including 43 women.
  15 UTs are there for more than 5 years and 79 are there for more than 3 years and less than 5 years. This problem is for such prisoners who have shifted because of greater shortage of space in other nearby jails. Besides that guard duty for taking for appearing in other district courts is a problem for the jail authorities. As the jail is not over crowded and under-trials from nearby prisons have been sent here. But when matters comes of giving guard for sending prisoners for the appearance, the district police has failed miserably. The cases should be reviewed by the visitors and these cases should be decided fast by the judiciary, as it is said justice delayed is justice denied. The reason for period under trial is because of this reason which need intervention by the commission.

- 7) The shortage of personals is there but the posts created are 392 but filled up are only 287. Thus 105 (27%) positions are vacant and definitely there is requirement of more personal. among the 4, class-1 and 2, Jail Superintendents only 1 is posted. among 2 doctors only one is posted. Among Subedars only out of 12 posts ,7 are only in position. Among 46 Havaldars, there are 22 on positions. Among 259 positions of Sepoy, 202 are in position and 57 are vacant. Thus among the guard 86 positions are vacant, which need to be filled. The posts of Sociologist, social worker, trainer, Psychologist are the need of hour in the jails. The jail industrial unit has good production unit and it produces various good worth lakhs but definitely there is scope for much more.
- 8) It has come to information of undersigned, that, visitation rights of the prisoners are at great variance from other states. At present the inmates are allowed to meet only immediate blood relatives. According to prisoners restricting to meet only immediate blood relatives and that also after police verification is a draconian measure and unreasonable restriction. It is felt, as permitted in other states, extended family and friends be allowed to meet the inmates. This needs examination and rules should be as far as possible be uniform in the country.
- 9) In the jail custody there are 3 cases of unnatural deaths and 64 natural death prisoners, in last 3 years. In the list of custodial deaths a proforma was developed, which is on page of annexure-2. these cases of unnatural deaths are on serial no 8,9 and 31 as given by the jail administration. In the case of Danny Harpal Singh describes at serial no 8, the date of death is 2-9-17 the case is pending in NHRC. the magisterial inquiry it seems have been submitted on 3/11/19 in the case of serial number 9, the date of death is 31/10/17 and the magisterial inquiry report has not been submitted till date. in case of serial number 31 also the magisterial inquiry report has not been submitted although case is of 3/7/18. It is requested that these matters be taken up by the concerned administrative wing of the

- commission strongly and seen that such cases the magisterial inquiry must be filed with the commission positively in 30 days after the unnatural death.
- 10) The articles like ropes, cutters, knives, metal articles are banned inside. Also metal nets have been fitted to prevent the towels/ cloths could not be tied in the toilet windows.
- 11) The SSRB is meeting is not being held regularly and there are some complaints of high handedness of SSRB it would be worth its while to request meetings of SSRB are held regularly and recently Maharashtra government has amended the prison rules in 2018, which has made furlough very difficult for many inmates. The eligibility of furlough has made much tougher than before and that has become the bone of contention. Each state may have separate prison rules but the things are becoming so different in states that there is lot of heart burning in the country. When IPC is same for the whole country and the courts also follow the similar principles. the high court's judgment of one high court may not be binding on other high courts but the Supreme court is there for all, It is high time that standard prison rules may be made by the home ministry and the guidance of National Human Rights Commission, so that the gap between the treatment of prisoners regarding parole, SSRB, furlough and an under trial whom he can meet, should not be very different in the whole country.

Dr Vinod Aggarwal

Special Rapporteur

-10	INICTITIONAL TREAT	
10	Classification	The prisoners are classified into Undertrials and Convicts. The undertrials and convicts are lodged in separate ward and barracks.
	Institutional routine	The ordinary daily routine of prisoners, except on Sundays and Prison holidays is as follows.  06.00 hrs 06.15 hrs. Opening of Prisoners Housing Units and counting of prisoners.
		06.15 hrs 06.45 hrs. Morning Ablutions and Batli.
		06.45 hrs 07.15 hrs. Exercises. Yoga. Prayers.  Organised games etc.
		07.15 hrs 07.45 hrs. Breakfast and Tea.  07.15 hrs 08.00 hrs. Work allotments.
		08.00 hrs 1 1.00 hrs. Morning work period.  1 1.00 hrs 12.00 hrs. Mid-day meal and rest  12.00 hrs 16.00 hrs. Afternoon work period.
		(Note: Undertrials and Inmates who are not required for work will be counted and locked in their housing unit from 12.00 hrs - 15.00 hrs.)
		15.00 hrs - 15.15 hrs Afiernoon Tea. 16.00 hrs 16.45 hrs. Games
		16.45 hrs 17.30 hrs. Evening meal 17.30 hrs 18.00 hrs. Counting of prisoners and the locking of prisoners
		18.00 hrs 22.00 hrs. Reading, TV, etc.

Education	All the prisoners detained in the prison, who want to continue with their incomplete studies, are inspired to take interest to proceed with their interrupted education. The Open Universities, i.e. YCMOU and IGNOU, have started their study centres in this prison and volunteer prisoners get their higher education completed through this facility. Yoga Deploma Sessions are also conducted and many prisoners have received Yoga Teacher Certificate. Illiterate prisoners are given basic lessons by the Prisoner Teachers under the guidance of the Guruji.
Vocational training and work	01. In the Prison's Factory Department, there are various business related factories, Weaving, Carpentry, Fabrication, Bakery, Tailoring, Idol making (fibre idol & earthen idols), Laundry, Soap Making, etc. According to the latest Maharashtra Prison Circular the prisoners are given: skilled-61, half skilled-55, unskilled-44 rupees respectively. According to the Government circular open prisoners are given 77 rupees per task, also according to the government circular there will be an increase of 10 per cent in wages every three years. 1/3rdof the amount is sent to the Prisoner's Welfare Fund for their welfare and 1/10thof their wages amount is utilised for the welfare of the prisoners. Such policies are not made and decided on our level of prison management but are made from the head quarters. Vocational training of two wheeler repairing, electrician course, plumber
Spirtual development	NGO named "Bramha Kumar Vishv Vidyalay "and Sant Nirankari Mandal's members visit in the institution and impart spiritual knowledge maditation and education amongst the UTP & also convicted Prisoners for their moral and intellectual development.
Organized recreation	During days of national importance. Cultural programmes are organized and it enables Prisoners to take part in activities like singing and games like, volley ball. chess board ,carom board etc are also organized by our institution & NGOs.
Rehabilitation assistance	The vocational training in courses like carpentry, Hand loom, handwork, courses etc are given by NGO's to Prisoners focusing on their reformation which helps them.

18	INVOLVEMENT OF NGOs AND SOCI	AL ACTIVISTS IN PRISON ACTIVITIES	
18.1			
	When was the Board of Visitors last constitued?	The official members of the Board of Visitors remain the same as prescribed by the Maharashtra Prison Manual 1979. Only the non-official members are reappointed by the Collector after three years. The present non-official members have been appointed in the year 2017.	
	What is the frequency of visits of Jail by the BOV?	The meeting of BoV is held once in three months.  The members of the BoV visit the Prison as per scheduled by the Collector who is the ex-officio Chairman of the BoV.	
	Are the observations recorded by the BOV soon after visit?	The suggestions and the descisions of the BoV are implemented. The compliance report is sent to the Collector and ADGP & DIGP of Prisons.	
	What is the current status of compliance with these observations?	The discision of the BoV to buy Hot Pots for prisoners is being worked on. The BoV has suggested to install two CCTV cameras in every barrack. It will be complied as soon as the funding is made available.	
19	GENERAL REMARKS		
	On the functioning of the prison administration, problems and grievances and suggestions for improvement	The major problem of the prisons adminstration is scarcity of the Staff. Availability of funding for various developmental works is also a problem. The scarcity of Police Escort is aslo a major problem.	
	Other difficulties regarding prison security	1) Lack of manpower and resources 2) Time to time change in provisions as per requirement 3) Lack of training sessions and refreshers courses. 4) Managing excessive work load

Nashik Road Central Prison

# Report 4, Mahatma Gandhi National Rural Employment Guarantee Act (MG NREGA) in Nashik district of the state of Maharashtra by Dr. Vinod Aggarwal, Sp. Rapporteur, NHRC on 27<sup>th</sup> Feb, 2020.

The implementation of this rural employment scheme was examined in the district of Nashik on 27<sup>th</sup> feb, 20. The population of the district is about 6.1 million. It is big district with 3.51 million rural population with 43 % population is urban & 57% population is rural. There is 7.1 % population belongs to SCs and 5.2 % are STs. In the rural area about 2.50 lakh SCs and 1.83 Lakh STs live. The number of SECC families in rural area are 2.26 as per district agricultural data are settled in the district. Nashik district, despite of very large urban population has equally large rural population, and require large number of

Nashik district, despite of very large urban population has equally large rural population, and require large number of schemes. The number of women in rural Nashik is 15.16 lakhs, which is 49%.

The number of registered families with job cards was 321072 in 2014-15, which increased marginally to 393626 in 2018-19. It seems a reasonable number as per 4 to 5members of a family almost 50% families of rural HH in Nashik have got their job cards made. The active job cards were 12% in 2014-15, and numbered about 39387. The active job cards got greatly increased to 71 % and in numbers to 281472 by 2018-19. That is a tremendous increase of about additional 250000 active family cards in 5 years. In the last 4 year the Aadhaar linked cards increased from 93000 to 254550 and verified from 25000 to 160144. Among the Aadhaar linked cards the verified are about 63%. by the figures it can be said that in last 4-5 years the district has made great strides in issuing the family cards and providing jobs so that the card holders become active. further linking to Aadhaar and than their verification is satisfactory although could have been better.

The man days target in last 5 years has been achieved only in 2-3 years and in some years it could not be attained. In the year 2014-15, the man days target was 3.66 million man-days against which 0.956(which is 26%) million. man days only was achieved. Next year in 2015-16 the man days target was reduced to 1.1million man days against which the achievement was 1.86 million man days. In the years of 16-17 the man days target was 3.08 million. man days and against this target 108% man days

were achieved. In the year 17-18, against a target of 2.84 million. man days 90% man days could be attained. But in the year 18-19, against target of 3.2 million. man days, achievement has been very poor and only 61% could be achieved. The district has 15 blocks in the rural area. Some of the blocks have done quite well with 158% (Yevla) of the annual target. while Baglan, Chandvad, Dindori, Malegaon and Peint blocks also have done more than 100% of man days but blocks like Sinnar and Nipad are sitting at 50% of man days only. In Aadhaar verification some blocks have done well, like in Peint block, the aadhar verification is 82%. thus there is great margin of improvement in various sectors of work of MG NREGA in the district.

For rural population of 3.51 mn, this target of 3.18 mn man days seems low but satisfactory as the poverty levels are lower and lot of jobs are available in manufacturing and service sectors. But if 100 man days work is to be given than only 31800 families could have been satisfied. Here in the district with active households increasing in large numbers but they really demand the work as the average man days per family came down to 15 in the year which were earlier 24 man days. The percentage of families who got 100 days of employment came down from 5.73% of total active HH to less than 1%.

On the point of timely payment 56 % of the payment is Aadhaar based in the year 2018-19, although 62 % of the Aadhaar linked cards are verified. This gap is of 6 % is reasonable and it was told that we need to 100 % aadhar linked and verified job cards and payment should also be 100 %through Aadhaar based devices to reduce malpractices. On timely payment in 18-19, more than 89.6% of wages have been paid within 8 days of generation of muster roll. Out of remaining 10.4 % payment. 5.6% wages were paid in 15 days. Therefore 5.7 % wages payment has gone beyond 15 days, in this district. in the previous year of 18-19, the payment with in 8 days was only 59% and payment within 15 days was 94%. thus in the current year definitely there is an improvement of timely payment over the previous year. In timely payment the district has come from 14 in 8 days in 2015 to 90% in 18-19. in 15 days it has come up from 39% to 96% in 4 years. In the yer when timely payment in 8 days was 59%, the blocks of Niphad, Nashik and Deola were doing

very well with 80% payment released in 8 days, while blocks of Chandvad, Trimbakeshwar and Malegaon are less than 50%. These 3 blocks are the last ones, explanation may be sought from them, for a very poor performance.

Visited work done under the sericulture department, in panchayat Khambale of the block Sinnar, where in the field of kisan Devram, family members and others were working in the field. here the muster roll has been made many months apart, which looks very odd. that means a labor who has worked 6 months back has not been paid, but that may be the system of maintaining the muster roll. It's a good scheme, where a farmer is supported for 3 years and than he is expected to be able to run his own work without too much of financial support under the scheme although all other supports which are non financial can still continue, but the maintenance of muster roll is not correct if wages are not paid for months to gather especially for the families who are not from the family, another scheme of another villager by the sericulture was also seen where in field of Ganpat Arjun Andhale, the payment of wages has been delayed or this is not the muster roll or this sheet is the group of muster rolls another scheme visited was the construction of goat shelter for an individual benefit. this work was being done to construct the shed in field of Sampat Gyandev chine which was sanctioned in as 612/2018-19 and on which officially work started in Dec 2018, but very little work had been done till date. it seems that the work might have began long time back but pend ency remained for various reasons. Here unskilled workers had 30 mandays, but for their muster roll was not shown.

#### Recommendations:

1. The rural population of the Nashik district is quite big and SCs and STs constitute 7.1 % and 5.2% of population. The number of active cards are 2.82 Lakhs, look reasonably high, and feel that district in a particular year achieved 2.6 million man days and definitely because of the poverty in the area there is not large and because the labor rates are low the labor don't come for this work unless they require funds. The man days target with 3.6 million rural population should be fixed higher around 4.5 million man days. The number of active cards could be

reasonable, but it is felt that the definition of active family card needs to be made substantially different. The family members at least work for minimum of 10 days and seek employment. There must be a system of their request be recorded that they are seeking work.

- 2. The district administration gave information of 4994 families been given 100 days in 16-17 as a best figure in last 5 years, for the families getting full 100 days employment. The other years the number of family getting 100 days is much lesser and average days an active family got employment has been between 10 days and best of 24 days in 14-15. It is felt that district has 12-13% ST and SC people, target for the weaker sections be easily thirty percent of total man days be earmarked for them. At least 10000 families out of SC, ST and Agricultural laborers who should get 100 days employment in the district.
- 3. Administrative expenditure is 5.6% based on mean of expenditure on administration of scheme in these 5 years. The expenditure on administration is within limits, in general but there is a rising trend as in 18-19, this expenditure is 6.4%. There is need to be an explanation be sought or such a high administrative expenditure if correct figures are there.
- 4. The number of incomplete works is about 26029 out of 79603 on which work was taking place between 1st April 2014 to 31st 2019. The 33% schemes as on 31-3-2019 remained incomplete. During the period the schemes which were pending on first day were 15079 and 64529 schemes were taken up. It looks like a detailed inspection of this district program and especially 3-4 chosen blocks need to be done by May-June, 2020, when the result of current financial year are also available. In the meanwhile, it is required that CEO conducts an audit and see that schemes more than 3 years old are either completed or foreclosed on an early date or in the current financial year 2019-20.

- 5. It is prescribed that 60% expenditure should be due on NRM (Natural Resource Management) and in 5 years it the expenditure Otherwise the NRM expenditure the 5 year average is about 80%, but figures are matching and can't be relied upon. It is a fact that reports submitted are totally unreliable and recommended a revisit and detailed review of the district MG NREAGA for at least full 4-5 days to come out with facts
- 6. I feel the district has 15 blocks where as other districts have 6-7 blocks. This district should have a strong team of officers and CEO of Zila Parishad should spearhead the program not the deputy collector level.
- 7. In the beneficiary oriented scheme, it was felt the selection process is not reaching the poor among the poorest. The families visited who were implementing the scheme did not appear really poor. That is an area where the district administration should work more in right selection of the beneficiaries.

Dr Vinod Aggarwal

Report-5, on visit to District Jail Ahmadnagar in Maharashtra by Dr Vinod Aggarwal Special Rapporteur on 28<sup>th</sup> February, 2020.

Format of Jail report is enclosed as annexure-1( p ), is also enclosed. Additional format of Jail report developed by undersigned is enclosed as annexure-2( p ), is also enclosed. Ahmadnagar district prison building is historical building known as "Chandbibi Mangni Mahal" used as district prison from 1940. The exact year or period of construction is not known. (may be 300-350 year old)

Recommendation after the visit, Discussion with Jail Superintendent and other officers of District Jail and inmates are as follows:

- 1. The district jail is quite old and completed 80 years in this building although building is much older. Although building is old and looks strong but, it would be desirable that a certificate be obtained, that it can withstand certain intensity of earthquake or other type of natural or man- made disasters, it could be dangerous to use the building. It is of utmost importance that the seepage and leakage may be completely stopped. As the space is very little one new barrack for prisoners is under construction. But that is not enough and if number of inmates are going to be in range of 170-180 than more barracks must be build.
- 2. The jail is meant to house 69 prisoners and at present 173 are there. The capacity is being utilization is 250 % or 2.5 times. There is no female ward. There are only 4 barracks measuring 2257 sq. feet. and the area available for barracks for the inmates, is not good enough for even 50 inmates, but there are 173 prisoners. When asked the details of barracks' size, Jail Superintendent informed the capacity of the district jail is only 51. The actual overcrowding is more than 3.5 times. One ward of about 1200 sq feet is being under construction but that will make space for only 70 inmates and I feel some action is immediately required to reduce the over-crowding of

- inmates. Instead of 10-12 there are 28 to 30 inmates in each ward. The situation should be expeditiously corrected.
- 3 Majority (164) of inmates who are under-trial and another 9 are convicts 5 with rigorous and 4 with simple imprisonment. The food is prepared by the under trials. Similarly cleaning is done by under trials only. The rate given to these inmates is low and against the BPRD norms. As work is being taken from undertrials for running the kitchen and conservancy services, as such posts are not created at all. It would be important that the BPRD rates are given to the inmates. If the district jail is going to be used for another 15-20 years than construction of a modern kitchen with equipment is also required.
- 4 The jail should have a 10 bed hospital, but in actual, no hospital has been established, although 7 beds are available. The doctor posted here, has been suspended and no general duty doctor has visited the jail since March 2019. The Compounder is running the OPD. When information about the visit of under signed, became known to the administration, an order has been issued, dated 26/02/2020 for visit of various specialists once a week, but they forgot to depute a doctor(general duty) for 2 hrs every day to run the OPD, which at present is being run by a para medical.
- 5 The Kitchen definitely requires up-gradation, by provision of automatic door closure, wire mesh in the windows, Fly catcher in the kitchen, is the immediate need. As such Kitchen requires electric kneader and Automatic chapatti maker, as number of convicted inmates are very few and under-trials are made to work in the kitchen which is against the rule.
- 6 Out of 164 prisoners who are under-trials, there were 72 are there for less than 3 months. There are 22 for 3-6 months duration. 17 UTs are there for 6-12 months. There are 36 under –trials for more than 1 year but less than 2 years. There are 12 under –trials for more than 2 year but less than 3 years. As these 12 UTs are there for more than 2 years, it is required that their cases are reviewed and delay in case be

- examined. But when matter comes of giving guard for sending prisoners for the appearance, the district police has failed miserably. The cases should be reviewed by the visitors and these cases should be decided fast by the judiciary, as it is said justice delayed is justice denied. Provision of the escort for presentation in the court may be expedited.
- 7 There is no great shortage of personals. Out of 42 sanctioned posts 39 are filled up. There are 27 posts of Sepoy out of which only 25 are in position. The Post of Jail Superintendent, medical officer, junior pharmacist are filled up, but the doctor is under suspension. The posts of hospital personal, cook etc have not been created. One post of clerk is vacant. But the posts are as per 69 inmates and inmates are more than 2.5 times the capacity. The posts need to be created according to the present number of the inmates for last one year. The posts of part time sociologist, social worker, Psychologist are the need of hour in the jails, which are also need to be created part time.
- 8 It has come to information of undersigned, that, visitation rights of the prisoners are at great variance from other states. At present the inmates are allowed to meet only immediate blood relatives. According to prisoners restricting to meet only immediate blood relatives and that also after police verification is a draconian measure and unreasonable restriction. It is felt, as permitted in other states, extended family and friends be allowed to meet the inmates. This needs examination and rules should be as far as possible be uniform in the country
- 9 There is no report of custodial unnatural death in this jail in last three years. There is no report of any escape or throwing of mobiles or other contraband with the help of catapult. But in older cases it has been seen that the magisterial inquiry has not been conducted timely. It is requested that these matters be taken up by the concerned administrative wing of the commission strongly and seen that such cases the magisterial inquiry must be

# filed with the commission positively in 30 days after the unnatural death.

10 The articles like ropes, cutters, knives, metal articles are banned inside. Also metal nets have been fitted to prevent the towels/ cloths could not be tied in the toilet windows.

Dr Vinod Aggarwal

Special Rapporteur

### NATIONAL HUMAN RIGHTS COMMISSION, NEW DELHI

	Woman Prisoners	No separate barrack for woman prisoner. So, no Woman Prisoners lodged in this prison
	Mentally Sick Prisoners	Two Mentally Sick Prisoner was transferred to Yerawada Central Prison, Pune, Maharashtra for further treatment as per the Order of the Hon'ble Court.
	Drug Addicts	No Durg Addicts Prisoners lodged in this Prison.
	Suffering from infections diseases like T.B., etc	No T.B. patient lodged in this Prison.
-		STAFF
	Sanctioned Strength (in various categories)	42
	Actual Strength (in various categories)	39
	Adequacy of otherwise of sanctioned and availlable staff	As per Maharashtra Prison Manual 1979, there should be one sepoy behind every 6 prisoners. With this point of view, the present availlable staff strength is inadequate.
5	Steps taken to fill up vacancies	The inadequacy of the staff is brought to the notice of senior officers during their visits to the prison.  Proposals have also been sent to the Head Quarters.

Term & conditions of service & employment of all categories of personnel keeping the service and morale in view has any objective and dispassionate assessment of the service conditions vis-à-vis operational efficiency been made if so, what are the finding and what corrective measures have been taken

Counseling, Meditation and Stress Management camps are organized in the Prison premises to achieve operational efficiency of all categories of employees keeping service & morale in view. A monthly meeting of staff is aslo arranged and appreciate them with certificate to encourage them and take cognizance of their problems and complaints.

	HUMAN RESOURCE DEVELOPMENT						
5.1	Institutional arrangements for training of officers and staff in various categories	The Officers in various categories are from time to time provided training by the institution head quarters within the state and outside for imparting needful education viz; Prison administration. Prisoner reforms. Prison security & Safety measures, human resource development etc. BPRD also arranges training sessions.					
	Duration of training for each category	The initial training period for officers is one year and for other staff is of 6 months and later on Revised training sessions are conducted from time to time in various categories.					
	Arrangements of the content, quality and impact of training on correctional behaviour inside and on rehabilitation of convicts after release.	Various Work Shops on various topics are organized from time to time by the Head Quarters.					
	Need for further strengthening	Timely training sessions should be arranged for the staff. The sessions should include counselling, updating to Modern Technology.					
6	RIGHT	OF PRISONERS					
	RIGHT TO SPEEDY TRIAL						
	No of UTPs lodged in Prison	Men	Women	Total			
6.1	What is the average duration for which they have been lodged in prison?	173 0 173  The average duration varies as this factor is within the scope of decisions of bail and trial by the concerned Courts.					
	What are the contributory factors to delay in disposal of cases of UTPs?	Irregular Court appearances, on compliance of Bail/surety conditions by UTPs and slow speed of trial in courts contribute delay in disposal of cases.					
	Specific suggestions to reduce this duration?	Regular Court appearances, Speedy trials, Leniency in Bail conditions, arrangement of Lokadalats etc can reduce this duration.					
	DICUTTO DE	DELEACEDOR	I DAIF				
	RIGHT TO BE RELEASED ON BAIL						

6.2	No. of petitions pending in the trial court for disposal	The data regarding pending petitions is not maintained by the prison department. The prisoned on not generally share this with the prison administration.		
	No. of cases where prayer for bail has been rejected but the advocate concerned has not yet communicated the reasons for rejection	The prisoners do not generally share this information with the prison administration.		
	No. of cases where the prisoners are unable to arrange suretites.	Not intimated by prisoners		
	No. of cases where the bail amount is high	Not intimated by prisoners		
	What are specific suggestions to improve the situation and register expeditious disposal of pending bail applications	(i) The concerned courts need to show leniency in grounds for granting Bail so as to enable UTPs to comply the bail conditions.  (ii) The NGOs ILegal aid organizations visiting our institution have taken steps in this regard by forwarding necessary applications for the Bail & Personal Release Bonds of UTPs which have enabled them to seek bail and/or expeditious trial as the case may be.		
	RIGHT OF CONVICTS TO APPEAL			
	No. of cases where appeal petitions are pending in the High Court	Not intimated by prisoners		
6.3	No. of years for which these petitions are pending	Not intimated by prisoners		
	Contributory factors	Not intimated by prisoners		
	Specific suggestions for expeditious disposal	The petitions should be run on fast track modes. The prisoners should be produced through Video Conferencing for hearings so that they can argue personally.		
6.4	RIGHT OF CONVICTS FOR PREMATURE RELEASE/PAROLE/REMISSION			
	What is the composition of the State Sentence Review Board	•		
	No of cases pending for review			
	Duration for which they are pending & reasons for pendency	<u>-</u>

18.1	FUNCTIONING (	OF BOARD OF VISIOTRS	
	When was the Board of Visitors last constitued?	The official members of the Board of Visitors remain the same as prescribed by the Maharashtra Prison Manual 1979.	
	What is the frequency of visits of Jail by the BOV?	The meeting of BoV is held once in three months.  The members of the BoV visit the Prison as per scheduled by the Collector who is the ex-officio Chairman of the BoV.	
	Are the observations recorded by the BOV soon after visit?	The suggestions and the descisions of the BoV are implemented. The compliance report is sent to the Collector and ADGP & DIG of Prisons.	
19	GENER	AL REMARKS	
	On the functioning of the prison administration, problems and grievances and suggestions for improvement	The major problem of the prisons adminstration is scarcity of the Staff. Availability of funding for various developmental works is also a problem.  The scarcity of Police Escort is aslo a major problem.	
	Other difficulties regarding prison security	1) Lack of manpower and resources 2) Time to time change in provisions as per requirement 3) Lack of training sessions and refreshers courses. 4) Managing excessive work load	

(N. G. Sawant) 28.02.2020 Superintendent Ahmadnagar District Prison

## Format for additional information from the Jail Authorities

There is a general format of NHRC in which information is gathered from jail authorities but lately NHRC is asking detailed information about 3-4 issues for which general format is not enough. So why these issues in the questionnare below:

1. Posts Created, Required as per BPRD norms and Posted.

	*	No Posts		Required as per		Domonica	
SN	Name of Post	Created	Posted	% filled	BPRD	% filled	Remarks
3	Superintendent, District Prison Class 2	1	1	100			
4	Medical Officer Class 2	1	1	100			Suspended
7	Jailor Group 1	1	1	100			
8	Jailor Group 2	2	2	100			
9	Subhedar	2	2	100			
10	Havildar	3	3	100			
11	Sepoy	27	25	93	-		
13	Senior Clerk	1	1	100			
14	Clerk	2	1	50			
16	Compounder	2	2	100			
	Total	42	39	93
