Report 1, on Visit to District Jail, Chhattarpur in MP by Dr Vinod Aggarwal Special Rapporteur on 5<sup>th</sup> June, 2018.

Format of Jail report is annexed to the report. The jail was built in 1818 but no records are available of more than 100 years. The Royalty of Bundelas had established this jail. The capacity of the jail is Male: 272, females: 20; total 292, but at present it houses, Male: 295 Female: 18 Total: 313 + 02 Children, who are living in this jail. More than the capacity is the present occupancy of the jail. The remand inmates who are in the jail: male: 197, females: 18, total: 215.

Recommendation after the visit, Discussion with Jail Superintendent, Physician, other functionaries and inmates are as follows.

- 1. The jail is very old and completed at-least 100 years after establishment. Although from facade, didn't that old, and can be used for another 30-40 years, but it would be desirable that the usability certificate for earthquake or other type of natural or other disasters may be obtained and may be used till the economics of the Government improves and a new jail is built, with modern design and facility could be given to the jail and inmates may have a comfortable life
- 2. The jail is meant to house only 292 prisoners but at present almost as per the capacity, 313 inmates are kept in this jail. There is very little over-crowding in various wards.
- 3. Jail campus is spread over 6 acres, 6 wards are newly build which house almost half of inmates. The new portions are satisfactory. It would be desirable that the old portions are replaced with 2 storey construction and the jail could add up to 500 inmates, hospital and industrial production centre for about 200 inmates can be housed by planning.
- 4. There are 300 inmates, out of which 97 are under rigorous imprisonment, but as there is no industrial unit at all, in this jail. Only few of inmates could be employed which are helping in cooking, cleaning and other routine activities and up-keep of the jail. The wage given to the inmates is also quite low and wages as per BPRD norms are not paid. Employment to all those who want to work should be provided.
- The jail should have a 20 bed hospital, but in actual there is no hospital. A
  doctor is posted at the hospital although bigger jails are without doctor. A lady

- doctor also visits the jail twice a month. This jail requires a hospital which is missing completely.
- 6. The Kitchen definitely requires up-gradation, in the form of Provision of Chimney, Automatic door closure, Impermeable walls, wire mesh in the windows, Fly catcher in the kitchen, and chapatti making machines, along with modern platform are the immediate need.
- 7. The no. of cage latrines are in sufficient, seeing the number in inmates in each ward or barrack, but creation as per norms would not be easily possible.
- 8. Out of 215 under-trials who are under-trials,

Period	Male	Female
upto 3 months	80	06
3-6 months	26	06
6-12 months	19	03
1-2 years	44	01
2-3 years	21	01
3-5 years	06	01
about 5years		

- 9 There were 8 who were imprisoned more than 3 years. These are the cases should be reviewed by the visitors and these cases should be decided fast by the judiciary, as it is said justice delayed is justice denied.
- 10 One major complaint, by the inmates of the prison, was that, the outside food and fruits etc. have been dis-allowed by the Jail Authorities. The jail Superintendent, showed me an order issued by Jail Head quarters after Bhopal Jail- break of 30/11/16 on 09/12/2016 which clearly mentions that food articles brought by family members, relatives and other persons coming to meet a prisoner have been disallowed and food article don't reach the inmates through such sources. But this issue could have been resolved by providing milk and fruits on payment to the inmates who are in position to pay or Govt. should rethink.
- 11 There is tremendous shortage of staff in the jail. The post created are few and only 50% are only filled up, which require some attention.
- 12 The jail has major problem of water, which was brought to the information of the district magistrate of Chhattarpur to find a permanent solution to the shortage of water. Also availability of potable water would be the next step.
- 13 The cage latrine and other toilets lacked the flush and piped water facility which is the need.

14 The posts of Sociologist, social worker, Psychologist are the need of hour in the jails. Besides the creation of positions of the supervisors in the production of various items they will impart training to the inmates.

Dr Vinod Aggarwal Special Rapporteur
