Visit to Model jail Lucknow, District Jail Dasna and discussion with IG Prisons and other senior officers of Jail Department by Special; Rapporteur of NHRC, Dr Vinod Aggarwal.

The visit to model jail was conducted on 10 th January, 18. Visit to Dasna Jail, Ghaziabad on 12th January. The meeting with senior jail officials of UP was done on 9th January, at Lucknow. The reports submitted by Jail authorities are enclosed with this report as anexxure-1, the format of Jail report of lucknow model jail. As anexxure -2, format of jail report for Dasna jail, Ghaziabad is enclosed. The salient point which emerged out of the meeting with senior officers and visit to the Jails are as follows:

- 1. The capacity of all Jails are in range of only 45000 prisoners but the number prisoners accommodated are 98000 approximately. Most of the jails suffer from overcrowding and even more than double the capacity are staying in Jails which may result in-human conditions and at some stage fight between inmates for want of space and contagious illnesses may increase.
- 2. The fact of overcrowding was evidently proved on visit of the Dasna jail as the capacity is only 1700 but the inmates were more than 4200. But the model Jail Lucknow which can house 600 had only 459 inmates as the process of selection of inmates for model jail is cumbersome.
- 3. Posts which have been created for management of Jails are very less. The number of warders are about 7000 and almost 50% of posts are vacant. This fact is confirmed with the visit of both the jails. In model jail Lucknow against the 143 warders only 74 are in place. In Dasna jail, against 191 posts of warders there are 87 in position. Thus there is acute shortage of warders about which senior officers presented a situation of helplessness. NHRC must raise the issue of filling the posts of warders on urgent basis.

- 4. There is also lop sided creation of posts. In model jail where inmates of proven good behaviour come there for 600 inmates, posts of 25 head-warders and 141 warders have been created, whole Dasna jail which has sanctioned capacity of 1704 and actually more than 4000 inmates has posts of 191 warders and 35 Head -warders. If the ratio is compared as per sanctioned capacity of Dasna jail the ratio of one warder for 9(8.92) inmates. But in actual practice with 4049 inmates it comes to one warder for 46 inmates. As compared to lucknow model jail for 600 inmate capacity, 143 posts are created, that suggests that almost 1 warder for 4 inmates. But as vacancies are there in large number of inmates and warders the ratio in actual practice comes to 460 divided by 74, which comes to 1 warder for 7 inmates. It is felt that in model jail where number of warders etc are required to a lesser extent, more posts have been created. It is felt such warders may be employed, else -where, for VIP duties or otherwise one can't under-stand, the larger no of post creation. The Jail administration can be requested to look into the matter and correct the situation with related to average actual strength of various prisons.
- 5. The posts for doctors have not been created sufficiently. Although a single physician is managing about 4000 inmates with a 35 bedded hospital but it is because the doctor is committed and doing much more work than what is expected, but the number of positions and equipments should be worked out based on the number of inmates.
- 6. In jails, the production from the inmates to the extent is desired is not being done. In Dasna jail, it was told that lack of space is the reason for not having industrial units in side the jail. But the posts like power-loom mechanic, electric sewing machine mechanic, band master, hand-made paper trainer, weaving trainer, carpet designer, painting trainer, trainer of Masonry, Electric motor binding trainer, cutting and stitching trainer, printing press trainer, pump mechanic, oil mill mechanic, tractor driver, agriculture supervisor, chair weave mechanic are the post which have

been created in the model jail, out of which large number of positions are full. As the raw materials not being procured as per the tender procedure, therefore most of the inmates of the jail are either without work or under worked. Therefore the trainers are sitting without work. There is need of optimum utilization of training manpower and productivity of the inmates. For immediate benefit the personal can be transferred to other jails for running the training program or where more such officers are available who are able to arrange the raw material from the industry. With 16 trainers I feel they are more than required for even full capacity of jail but 5-6 trainers are required in each jail with 500 convicts. The Dasna jail does not have a single industrial trainer.

- 7. The daily allowance paid for the work done by inmates is too low. They are paid at rate of Rs 40, 30 and 25 only. These rates are prevalent from April 2011. These rates should have been revised earlier but are under revision. The rate should have been 112, 125 and 152 as given in other states. That may be another reason for the even inmates not wanting to work.
- 8. There is no chapatti making machine in Dasna jail and out of order in model jail Lucknow, but dough making machine and gas stoves are available and used. The kitchen at Dasna maintains a high order of cleanliness with help of fly catchers and fly proof automatic door closures. Although no Chimney but sufficient exhaust fans have been installed. This could be shown to other jails to emulate who are not able to do it.
- 9. The norms of food are sufficient with enough variety but only thing is whether the norms are provided or not and there is no way to measure it except for the officers directly involved in day to day management as there are no procedures to measure the food quality and quantity.
- 10. The number of appeals pending in high courts are many from Dasna jail inmates. There are 553 such appeals. There are 681 convicts and 553 having appeals in high court is a

very high number. Less than 3 years old appeals are 373. But older (3-8 years) appeals are also 180. There is a case for taking up with courts for appeals of the convicted prisoners are disposed in a way that they are closed at the earliest.

- 11. There is a matter of great concern that there are 3 prisoners who are in jail because of want of arranging the sureties. This is against the norms and there cases be present before the concerned authorities for securing thier release.
- 12. In Dasna Jail out of 3368 UTs, out of which 1074 undertrial are of less than 3 months duration. Another 1103 UTs are of 3-12 months duration. 843 Uts are there for the duration of 12 months to 3 years. But 254 UTs of more than 3 and less than 5 years and 94 UTs of over 5 years is cause of serious concern and require steps from the NHRC.
- 13. The use of video conferencing is only for production of witnesses but not for the later stages. The need of the hour is that the videoconferencing use is to be increased to reduce the need to take the inmates to the court campus which is time consuming and costly.

### Final Recommendations

### General

- A) The establishment-of at-least-15-16 Model jails, one eachfor one division in next 2-3 years, to increase the facility to such convicts who have shown good behaviour and reduce the expenditure on state exchequer as these model jails can have reduced infrastructure and jail personal to reduce the costs to Government per inmate. Even open jail model may be attempted at few places immidiately.
- B) The capacity of Jails be augmented according to number of inmates and crowding to the extent of 2.5 times be reduced to almost zero level in next 2-3 years.

- C) The personal (jailors, warders, head warders) be increased as per the formula of 1 warder for 10 inmates in normal jails, 15-20 inmates in model jail and 30-40 inmates in open jail. The cadres of Medical doctors is too small and need to be enlarged to a bigger cadre who are trained in treatment of psychiatric illnesses.
- D) The posts of trainers for education and vocations be created along with post of social workers and psychologists to change the out look of the inmates.
- E) Increase the wages as per Supreme Court guidelines for the inmates and get enough work for all those who want to work.
- F) Involvement of NGOs for the welfare, education, vocational training of prisoners.

### Recommendation For Dasna Jail specifically

- a) To assess whether a floor can be added to the building to increase the capacity of a new jail or to build another nearby jail to accommodate large no of inmates.
- b) Automatic chapatti Maker for the Kitchen, along with the chimney in the kitchen.
- c) The additional personal as suggested in the general recommendations for all jails in point C,D and F.
- d) Arrange release of 3 such inmates who are not able to arrange for sureties themselves.
- e) Creation for facilities for production, so that the inmates are gainfully employed.
- f) One ex MLA Shri Amarpal Sharma, under-trial was kept in the special cell and felt that government is harassing him. It is required that NHRC examines his case and see that he is not being harassed out of way by the authorities under various pretext.

### Recommendations For Model jail Lucknow

- i) There is only one model jail in the state and that is kept partly full. I feel this jail can easily accommodate more than the capacity but even inmates are only 77 %. It is recommended that it could be filled to 150% of its capacity, immediately by selecting the inmates from other jails who can be shifted due to their good behaviour and opening of such and open jails to reduce the expenditure of the Government.
- ii) At present there is over staffing at this jail. It seems personal like 7 guards are kept when there is only one post. There are 27 head warders against 26 posts and 16 trainers. At this juncture the number of posts need to reduced and otherwise also overstaffing need to be rationalised.
- iii) The inmates are not suitably employed as the raw materials have not been procured in time by the concerned authorities. This is a matter of great concern. There is need of coordination with various government department for procurement of various items of use by them from jail, like bed sheets, blankets, utensils, soap, bread & other baked products like biscuits and clothings for hospitals; files, printing, carpets, hand-made papers for Collectorates, Police and Judicial offices and almost all products for jail inmates can keep them gainfully employed and can look after their own families with this production.
- iv) Their was a facility given to inmates in model jail to spend 15 days in a year, with their families, which has not been granted this year and is a matter of great sorrow and stress to the inmates which need to be resolved at 

  the earliest.

। आदश कारागार, लखनक में निरू	द्व पात्र बन्दियों को सन 1958 से पत्रीक वर्ष 15 कि	न के सन अवस्तार का -	<del></del>

आदर्श कारागार, लखनऊ में निरुद्ध पात्र बन्दियों को सन 1958 से प्रत्येक वर्ष 15 दिन के गृह अवकाश पर उनके घर पर उत्तर प्रदेश के शासनादेश द्वारा भेजा जाता रहा है। वर्तमान में गृह अवकाश जाने हेतु बन्दी की सम्बन्धित माननीय न्यायालय -से-अभिमत-की मांग-शासन द्वारा की जा रही है। विगत वर्ष 2017 में भी बन्दी गृह अवकाश पर नहीं जा सके हैं। ऐसी स्थिति में बन्दी मानसिक तनाव में रह रहे हैं तथा बन्दियों द्वारा कोई अप्रिय घटना कारित किये जाने की सम्भावना से इन्कार नहीं किया जा सकता है। अतः पूर्व की भांति बन्दियों को 15 दिन के गृह अवकाश पर भेजा जाना न्यायोचित होगा।

Q
